In all the above cases only the Project Data Input Sheet has been sent. No contract data input has yet been sent.

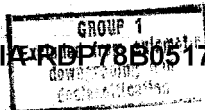

2. Enclosed please find (1) Project Data Sheet #2799 bearing the numbers 01555330 and 607300. This record concerning Chip Comparator Modifications currently exists in your system as 91555330 and 607300. The 1970 obligation version is the correct one.

3. Please find attached one set of Project Data Input Sheets and Contract Data Input Sheets 2799 and 2799a, bearing the numbers 01555330, 606100 (2799) and 01555330, 606101 (2799a). These sheets are concerned with the development of a 1540 light table by the [redacted] This record is currently in your system as 91555330, 607300, 91555330 and 607301. The fiscal year requirement is incorrect as well as duplicating

an already used ORN number. I hope this is clear enough to allow correction.

4. Attached please find two sets of 2799a bearing numbers 91555330, 500201, 91555330, and 471701. Line 2J was missing the contract status code which these sheets supply.

5. Attached please find a list of current CIS control numbers which are incorrect. In the following cases Contract Data Input Sheets and Project Data Input Sheets have been sent. I am altering my copy to indicate the update.

<u>Data Project Input as Listed</u> **		<u>Should Be</u>	
Data Contract Input as listed #			
91555330	606500 #	01555330	606500
91555330	606501 #	01555330	606501
92555310	632300 #	02555310	632300
92555310	632301 #	02555310	632301
91555330	580600 #	01555330	580600
91555330	580601 #	01555330	580601

6. Attached please find one of two copies of an unidentified sheet received in the monthly bundle. I would appreciate it if you could identify this sheet. In checking my records, I discovered only one of the ORN numbers (6031) is not a fiscal 1970 project, nor does it come from covert funds. None of the other numbers fits my records.

7. Attached please find a duplicate xerox copy of 2799 and 2799a bearing the CIS numbers 91555340, 631000, 91555340, and 631001. These are the sheets on which the computer generated a type error, no project data. Please note date of submission of project data in upper right corner of 2799. I would assume this has gone through.
